Count On Our Support

The Leader in the field of Asphalt.

يقوم

مصنع مواد تثبيت التربة (ساندفكس) بإنتاج جميع المنتجات الاسفلتية والمستحلب الاسفلتي والأسفلت المؤكسد بجميع درجاته ودرجات الغرز المختلفة من المنتجات الاسفلتية كما يقوم بإنتاج مواد تثبيت التربة الاسفلتية والمبلمرة وكذلك دهانات الطرق الحرارية باللونين الابيض والاصفر والمواد العازلة للماء . وللمصنع شركة شقيقة هي مؤسسة فالح داهم الدوسري للمقاولات وهي مؤسسة مؤهلة من قبل وزارة النقل السعودية للقيام بأعمال تثبيت التربة واعمال صيانة الطرق بالسلري سيل والمكروسيرفنج والمؤسسة الشقيقة تمتلك المعدات الخاصة بتلك الأعمال وكذلك فنيين مهرة قاموا بتنفيذ العديد من تلك الأعمال داخل المملكة وخارجها .

Sandfix ... Knowledge of Asphalt based on construction and Soil Stabilization throughout Middle East has been a portfolio of prestige. The successful performance of our product in extreme climatic conditions has given an opportunity for SANDFIX to emerge as the leader in the field of Asphalt its practical application in construction products.

Sandfix.Reputation in the construction material industry is built on the best quality, service and the versatility of its products for the variety of application.

Quality assurance Personnel strictly follow the quality Control Process by performing all the tests at various stages of production in our well equipped laboratory to attain International Standards and quality requirements of the products.

Sandfix... Technical Teamworks in the latest technology to develop new ideas and products. Being a member of the "International Slurry Surfacing Association", we keep the track of recent advancement in the other parts of the world and adopt the suitable one for the Middle East. Our scope of work, products and quality has been approved and certified by ARAMCO, Royal Commission and various other organizations and reputed companies in Saudi Arabia. Specialized products design facilities are available to meet demand of the clientele.

Sandfix ".with its wide range of products serves the people better in the constructions of Road, Buildings, Water proofing & Soil Stabilization work.

Water Proofing Materials

our water proofing product resist extremely hot climates, rain, and sub-zero temperature, we have liquid and solid waterproofing in the folowing category

- Bituminous Based
- Solid Grades - Oxidized Bitumen in all Grades
- Semi-solid Grade - All Mastek Grade
- Liquid Grades - All Rubbersed Emulsion Grade

ACRYLIC BASED WATER PROOFING AVAILABLE IN DIFFERENT COLORS

Water Proofing Membrane

Polymer modified bituminous membrane is produced in

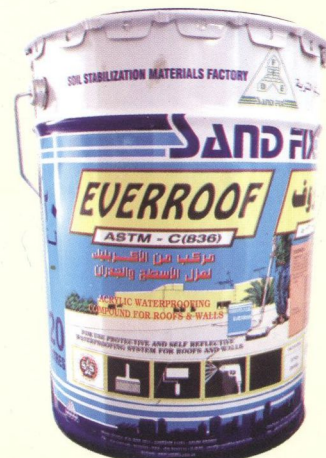

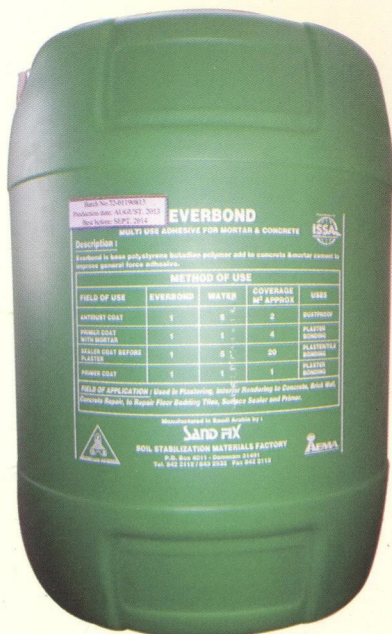

- Different polymer modifiers.
- Different reinforcement. (Polyester and Fiberglass).
- Different thicknesses.
- Different Surface finishes.

(Plain, Sand coated, Slate coated).

Special - Purpose Products

- Bonding Agent - For all Concrete Mixes
- Play Yard Coats - Available In Red and Green

SANDFIX TECHNICAL TEAM IS READY ALL THE TIME FOR ANY TECHNICAL CONSULT

Soil Stabilization Materials

The development of large projects in the desert area, has introduced the need of holding soil in place. Moving sand creates deposition in one place and erosion in other, is the biggest problem.

To prevent problem, our scientist introduced a Chemical Stabilizer", spraying liquid media by spraying equipment was found the most effective.

It is economical, speedy and durable. We have liquid stabilizer media are of the following categories.

- **Asphalt Base - (Sandfix)**
- **Polymer Base - (Sandfix C)**

Faleh Dahren Al-Dossary Est. (FDDE), as sister company, is prequalified by the MOC for soil stabilization works. FDDE has qualified crews and special equipments for soil stabilization jobs.

Sandfix grades are manufactured as per American standard ASTM

Polymer based stabilizer, is colorless transparent and can be produced according to the required stabilization

Asphalt Products

- Medium curing cut back for prime coating.
- Penetration grade asphalt of various such as 40-50, 80-100 and 120-180
- Soft Grade - High Penetration
- Asphalt emulsion such as

- " Slow setting Cationic, Cationic Grade Bitumen Emulsion.
- " Medium setting Cationic, Cationic Grade Bitumen Emulsion.
- " Rapid setting Cationic, Cationic Grade Bitumen Emulsion.

Faleh Dahem Al-Dossary Est. (FDDE), a sister company, is prequalified by the MOT for Slurry Seal works. FDDE has qualified crews and special equipments for slurry seal jobs.

Our asphalt products are used for road construction, road maintenance and other civil works.
